

IMPORTANT INFORMATION

*A copy of your original order should be enclosed with shipment.
Please check it carefully for information regarding unfilled items.*

Regularly stocked items not filled on your order (coded "R") will not automatically be back-ordered, unless you have specifically requested us to do so. We have found that dealers usually get faster service by simply reordering, since out of stock items are often back on our shelves in less time than it takes to process back-orders.

Items not regularly stocked by us are coded "H" on your order. This is to inform you that the item must be special ordered by us from the publisher in order to obtain it (provided the item is still in print and available). You then have the option of reordering and asking us to back-order, or taking whatever other action you wish.

(Note: In some cases, where stock is expected to arrive within a day or two, we may elect to back-order for some customers. Such items are coded "X". Generally, these are customers who have regularly asked us to back-order in the past.)

We carry music of all major publishers!

Partial listing of publishers and agencies

Accura	Chas. Colin	Henle	Mayfair/Montgomery	G. Schirmer
